

Name of Project – Providing Rain water Harvesting (RWH) Tanks to Haputale J.S.

Location: Haputale Junior School

Date : 22.01.2025

Project Description:

With the Collaboration of Lions Club of Pilimathalawa Perera & Sons and Lanka Jalani we provide 5000 lt Rain water Harvesting system to Haputale Junior school.

Haputale Junior School, located in the Kandy Educational Zone at Patha Hewaheta AGA Divison , the project involved installing a Rainwater Harvesting (RWH) system. The installation process included Fixing Gutters and connecting the gutter system to the tank via downpipe and fitting a water filter to the downpipe. Additionally, a concrete chamber was fixed to safeguard the stop valve from being tampered with by school children, to prevent tampering and ensure easy maintenance of the system.

Perera and Sons provided financial support for this project.

Direct Beneficiaries - 316 children

Indirect Beneficiaries - 1580

Cost of Project – Rs. 361,050.00

Participation

Lion Lalith
