Visiting Lions who are sick

Lion Dharmawardane

" I was sick and you looked after me " Jesus Christ.

He emphasised the importance of this kind of act of compassion and commends those who care for sick. That is why he said "caring for sick means caring for him "

Lions also follow same principle whether it is Buddhist ,Catholic or any other religion. That is why Lions Club of Avissawella decided to visit all those Lions who are sick for long time and unable to attend meetings and other activities. But they were at one stage very active and some of them were Presidents also.

The tears which flows through their eyes when they see the fellow Lions and Lion Ladies in front of them at their own premises spoke thousands words. What is it ? Lionism is noble and it's a religion in a way. It spreads compassion and human dignity.

Large number of Lions and Lion Ladies attended this programme and visited those Lions with mementos and fruits and enjoyed thoroughly at their premises and posed for a group photograph . This programme made them to recall their pleasant memories .
