

Broader Theme- Environment Protection

Theme - Any other environmental protection related project

Programme - Distribution of solar power operated LED lights

Date - 15.12.2024

Venue - Egodagama village

No. of beneficiaries- men 03 Women 02

Impact of the programme

Entire world is concerned of climate change and it's bad effects. Today almost all countries are facing this severe problem and confronting with various types of environmental disasters such as floods, cyclone, landslides, tornados and so on.

Consequences are loss of hundreds of thousands of lives and properties.

Can we at least do a little effort to reduce carbon emissions into the environment by way of reducing fuel usage and increase solar energy.

Lions Club of Avissawella introduced a project to motivate rural masses to use solar powered LED lamps instead of electricity which is generated from diesel or Naptha (burnt oil).

COST SHEET

LED circuit set - $2500 \times 5 = 12500$

Bottles = 05 - $500 \times 5 = 2500$

Refreshment - = 3500

Total - = 18500
