

PROJECT REPORT

“Mee Tree Distribution Initiative”

Project Title: *Green Roots for a Sustainable Future*

Organized by: Lions Club of Colombo Royalty

Occasion: Region 3 Project Day

Venue: St. Anne’s College, Kurana, Negombo

Date: 09.11.2024

1. Introduction

The Lions Club of Colombo Royalty proudly organized an environmental sustainability initiative as part of the Region 3 Project Day celebrations. Held at St. Anne’s College in Kurana, Negombo, the project aimed to encourage environmental awareness and green practices within the local community.

2. Objectives

- To promote eco-conscious living through tree planting.
- To support local biodiversity by encouraging the planting of native tree species.
- To educate families on the long-term benefits of environmental stewardship.

3. Key Activities

- **Distribution of 25 Mee Tree Plants:**
A total of 25 Mee tree saplings were distributed to 25 local families in the Kurana area.
- **Awareness and Education:**
Families were also educated on how to care for the Mee tree, its ecological benefits, and the importance of native species in sustaining local ecosystems.

4. Impact

- **Environmental Benefits:** The Mee tree is known for its role in improving air quality, conserving water, and supporting biodiversity. These saplings, once grown, will enhance the green cover and contribute to a healthier ecosystem.
- **Community Engagement:** This project created a meaningful opportunity for community participation, fostering a sense of environmental responsibility and ownership among the recipients.

5. Conclusion

Through the successful distribution of Mee tree saplings, the Lions Club of Colombo Royalty has once again demonstrated its dedication to environmental conservation and community welfare.

This project not only plants trees but also sows the seeds of sustainable living and environmental responsibility in the hearts of the people.

6. Acknowledgements

We extend our sincere gratitude to:

- St. Anne's College, Kurana for hosting the event.
- All the Lions Club members and volunteers who contributed to the project.
- The 25 families who embraced this initiative with enthusiasm and commitment.
