

Project Report: Home Gardening Initiative – Region 3 Project Day

Organized by: Lions Club of Colombo Royalty

Occasion: Region 3 Project Day

Date: 9th November 2024

Venue: St. Anne's College Premises, Kurana

1. Introduction

In celebration of Region 3 Project Day, the Lions Club of Colombo Royalty organized a meaningful environmental initiative at St. Anne's College, Kurana, on the 9th of November 2024. The project focused on promoting home gardening as a sustainable and practical solution for food security and environmental stewardship.

2. Objectives

- To promote sustainable living through home gardening.
- To support families in growing their own food and reducing household expenses.
- To raise awareness about the health and environmental benefits of gardening.
- To encourage greener lifestyles and community involvement in environmental protection.

3. Project Details

- **Activity:** Distribution of vegetable plants
- **Beneficiaries:** 15 families
- **Items Distributed:** 15 vegetable plants (one per family)
- **Project Cost:** LKR 2,250

4. Outcome and Impact

Each of the 15 families received a vegetable plant to either start or expand their home garden. The initiative was well-received and is expected to create long-term positive impacts by promoting food self-sufficiency, reducing carbon footprints, and fostering a deeper connection with nature among community members.

5. Conclusion

This simple yet impactful project reflects the Lions Club of Colombo Royalty's continued commitment to environmental sustainability and community well-being. By empowering families to take part in home gardening, the club has taken a step forward in promoting a healthier and more eco-conscious society.
